Student Study Assignments

Before class--

- Read Student Handouts 1 and 2.

During class--

- Participate in classroom discussion.

After class--

- Review notes and lesson materials.
- Turn in all recoverable materials.

Instructor Requirements

1:8, SSG or SFC, PLDC graduate, ITC and SGITC qualified (SFC only used in the absence of an SSG and approved by the proponent commandant, or post commander)

**Instructional
Guidance**

NOTE: Before presenting this lesson, instructors must thoroughly prepare by studying this lesson and identified reference material.

The SGL will--

Before class--

- Read and study all TSP material and be ready to conduct the class.
- This TSP has questions throughout to check learning or generate discussion among the group members. You may add any questions you deem necessary to bring a point across to the group or expand on any matter discussed.

During class--

- Conduct the class in accordance with this TSP.

After class--

- Collect all recoverable materials after the examination for this lesson.

SECTION II. INTRODUCTION

Method of Instruction: <u>Conference / Discussion</u>
Technique of Delivery: <u>Small Group Instruction (SGI)</u>
Instructor to Student Ratio is: <u>1:8</u>
Time of Instruction: <u>5 mins</u>
Media: <u>None</u>

Motivator

One of your most important responsibilities as a leader is to train your subordinates in the medical threat and principles of preventive medicine measures. As noncommissioned officers, it is your responsibility to ensure that your soldiers remain healthy during field operations. You can do this by recognizing and enforcing proper field hygiene and sanitation procedures.

Terminal Learning Objective

NOTE: Inform the students of the following Terminal Learning Objective requirements. At the completion of this lesson, you [the student] will:

Action:	Determine leader preventive medicine measures.
Conditions:	In a classroom environment as a small unit leader responsible for 5 to 10 soldiers.
Standards:	Determined leader preventive medicine measures in accordance with FM 21-10 (SH-2).

Safety Requirements

None

Risk Assessment Level

Low

Environmental Considerations

NOTE: It is the responsibility of all soldiers and DA civilians to protect the environment from damage.

None

Evaluation

You will take a written examination. The examination will contain questions from this lesson. You must correctly answer at least 70 percent of the questions on the examination to receive a GO.

NOTE:

- Inform the students of where their examination will take place as posted on the training schedule and when they will receive feedback on the tests. Include any retest information.

-
- Inform the students that they must turn in all recoverable reference material after the examination.
-

**Instructional
Lead-In**

This lesson will aid in developing your warrior ethos, not only in becoming more proficient and professional, but also in your skills of maintaining your self and your soldiers. You must recognize and take actions against the medical threats found in field environment and especially in a combat environment. The healthier your soldiers are the higher their morale and their ability to deploy, engage, and destroy the enemy.

During this lesson, we will discuss the following medical threats--

- Heat.
- Cold.
- Arthropods and animals.
- Food/waterborne diseases.
- Poisonous plants and toxic fruits.
- Noise.
- Toxic chemicals--non-NBC.
- The unfit soldier.

Along with the medical threats, a major concern for leaders is the principles of preventive medicine measures (PMMs). The three major principles of PMM are--

- Soldiers perform individual principles of PMM.
- The chain of command plans for and enforces PMM.
- The field sanitation team trains soldiers in PMM and advises the commander on implementation of unit level PMM.

Our main focus will be on how the chain of command plans for and enforces PMMs. As a small unit leader, your knowledge of the medical threat and PMMs can play an important part in mission accomplishment.
